REMARKS

The figures of births and deaths shown in this statement for week ending the 3rd December, 1955 relate to 212 towns with an estimated population of 28,803 thousands. The total number of towns is 313 and their population is 40,934 thousands. Thus 68% of the total number of towns representing 70% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 20,198 and 6,816 representing birth and death rates of 36.5 and 12.3 per thousand of population respectively.

(a) States (Parts A & C).—The data here relate to 171 towns with an estimated population of 23,228 thousands. Information about Ajmer, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 68% of the total number of towns representing 71% of the total population is covered. The number of births and

deaths recorded in these towns were 17,589 and 5,841 representing birth rates and death rates of 39.4 and 13.1 per thousand of population respectively. The table at the end gives the position by States

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B).—The data here relate to 41 towns with an estimated population of 5,675 thousands. The total number of towns is 61 and their population is 8,362 thousands. Thus 67% of the total number of towns representing 68% of the total population is covered. The number of births and deaths recorded in these towns were 2,609 and 972 representing birth and death rates of 23.9 and 8.6 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
